## *Frequently Asked Questions*

---

### HOW MUCH DOES YOUR STANDARD CONVEYOR COST?

Approximately \$575 per 2'-6" (30") Long Zone, or \$230 per foot (un-installed) for conveyor hardware only and standard zone-to-zone conveyance with no power supplies or high-level controls.

### WHAT ARE YOUR ESTIMATED LEAD TIMES?

We typically plan a minimum of 6-8 weeks from PO to ship for basic conveyor systems without sortation. For more complicated custom solutions, we plan for 10-12 weeks from PO to ship; however, could still be longer based on the overall solution. This also depends on the market and current orders in process. We can supply a more exact ETA once the RFP is received, Proposal is submitted, and a PO is received.

### WHAT ARE THE COMMON BETWEEN FRAME WIDTHS?

Common between frame widths are 15-inch, 22-inch, 24-inch, 28-inch, 30-inch, 36-inch, 42-inch, and 48-inch. Custom frame widths can be provided from 15-inches to 48-inches.

### WHAT ARE THE COMMON CONVEYOR LENGTHS?

Common section lengths are 2.5-foot, 5-foot, 7.5-foot and 10-foot, but custom lengths can range from 3-inches to 10-foot in 1-inch increments depending on required roller centers and zone lengths.

## **WHAT ARE THE COMMON CONVEYOR TOP OF ROLLER HEIGHTS?**

Common top of roller heights can range from 6-inches to 12-foot for floor supported equipment; however, can also range up to 30+ Feet for ceiling hung applications. Any top of roller height can be provided upon request and based on the application.

## **WHAT ARE THE STANDARD CONVEYOR MOUNTING OPTIONS?**

Standard floor supports with adjustable legs for single tier or multi-tier applications, ceiling mounted/hung and caster mounted options are all available.

## **WHAT COLOR DOES IT COME IN NS ARE THERE UPCHARGES FOR CHANGING COLORS?**

Our standard conveyor comes Powder coated in CCS Blue color #25230 or RAL 7035 Light Grey, but custom coloring is available for an additional charge and will be quoted per application.

## **WHERE IS THE CONVEYOR MANUFACTURED?**

Our conveyor is manufactured in four different CCS manufacturing facilities in Frederick, MD, Savannah, GA and Lubbock, TX.

## **WHAT ARE SOME COMMON ADDONS THAT CAN BE ADDED TO YOUR STANDARD CONVEYOR?**

Pushers, transfers, sorters, lift gates, curves, merges, diverts, intersections, inclines & declines, spirals, power supplies, controls, and more.

## HOW FAST DOES YOUR STANDARD CONVEYOR RUN?

Between 30 and 300 feet per minute depending on the application.

## WHAT TYPE OF PRODUCTS DOES YOUR STANDARD CONVEYOR HANDLE?

Pushers, transfers, sorters, lift gates, curves, merges, diverts, intersections, inclines & declines, spirals, power supplies, controls, and more.

## WHAT IS THE MAX WEIGHT CAPACITY OF YOUR STANDARD CONVEYOR?

Up to 40 lbs. per linear square foot on our standard conveyor and up to 800 lbs. per linear square foot on our pallet conveyor. Custom solutions can be provided based on the actual weight of your product being conveyed.

## WHAT IS THE OPERATING VOLTAGE OF YOUR STANDARD CONVEYOR?

24VDC Output Voltage with 480VAC, 208VAC, and/or 120VAC Input Voltages typical for USA applications and 575VAC Input Voltage for Canadian applications.

## DISCLAIMER:

All of our solutions are customized to fit your system's needs. As such, prices almost always vary from the standard listed price. Please reach out for a quote if you'd like a more exact price on a project. Thank you.
